MIN 100 SEEDS ~~19.50~~
PACKED FOR 2022 SELL BY 12/31/22

(Amaranthus tricolor)

CHINESE MULTICOLOR SPINACH AMARANTH

A heat and drought-tolerant green in spectacular splashes of color, leaf amaranth is popular in Asia and is eaten raw, stir fried or steamed. Succulent leaves make a perfect spinach substitute, ideal for mid-summer when others have bolted. Harvest 30-40 days from sowing.

PLANTING INSTRUCTIONS

Surface-sow seeds directly in the garden after danger of frost, barely covering. Requires full sun. Tolerates heat and drought but best with average moisture and fertility.
