(Solanum melongena)

TURKISH ORANGE EGGPLANT

80 days. This beautiful heirloom comes from Turkey. The 3" round fruit is best cooked when it is green to light orange. This variety has very sweet and flavorful flesh. It imparts a strong, rich flavor to any dish. The small, ornamental plants yield well.

PLANTING INSTRUCTIONS

Start indoors in bright light 8-12 weeks before last frost date. Heat mat helps to warm soil and speed germination. Setting out larger transplants helps to fight pest pressure.
