Packed for 2022 \$3.50 Sell by 12-31-22

(Diplotaxis erucoides)

WASABI ARUGULA

35 days. The 8-inch-tall plants with unassuming, softly serrated leaves are a delightfully spot-on replacement for that pungent horseradish-y condiment that is so loved with sushi. The Wasabi arugula is perfect for salads, for topping sandwiches and is so open to creative culinary interpretation!

PLANTING INSTRUCTIONS

Succession-plant for continued harvest. Summer plantings can be located in part shade to avoid bolting and for better flavor.
