**(Nasturtium officinale)**

**AQUA LARGE LEAF WATERCRESS**

Succulent crisp leaves have pungent peppery flavor, long considered a gastronomic delicacy.

Watercress is easily cultivated in traditional garden beds or containers; this variety is particularly high yielding and well suited for home and market gardens.

**PLANTING INSTRUCTIONS**

Needs moist, fertile soil. Sow in late winter to mid-spring and harvest before hot weather. Or plant in early fall for late fall harvest.
