(*Apium graveolens*)

CHINESE WHITE CELERY

A delicate and delicious Chinese variety with snow-white stalks. The long, slender, hollow stems have strong celery flavor. This variety is known to be easy to grow and more heat tolerant than other celery varieties.

PLANTING INSTRUCTIONS

Start seeds indoors 8-12 weeks ahead of last frost date. Surface-sow, gently pressing into soil. Transplant outdoors after last spring frost, into rich moist soil in full sun.
