

*(Cosmos sulphureus)*

### APRIGOT LEMONADE COSMOS

A silky soft palette of unique color combinations has made Apricot Lemonade one of the most highly sought-after heirloom flowers. This is the first cosmos variety known to combine sumptuous shades of buttery lemon and apricot. Whimsical display in the landscape or fine arrangements.

#### PLANTING INSTRUCTIONS

Sow in place in mid-spring. Plants require full sun, fairly warm temps, moderate moisture. Removing spent blooms prolongs the blooming season.
