(Cosmos bipinnatus)

GANDYFLOSS RED COSMOS

If you like your cosmos big and bold, this is your choice! Magenta colored blooms with a vibrant yellow eye. Compact, 2 foot plants are smothered in extra large 4 inch blooms, an exemplary choice for containers, landscape design, and the cutting garden.

PLANTING INSTRUCTIONS

Sow in place in mid-spring. Plants require full sun, fairly warm temps, moderate moisture. Removing spent blooms prolongs the blooming season.
