

CAT# HPP116 LOT# 19/BC  
MIN 10 SEEDS \$3.00  
PACKED FOR 2021 SELL BY 12/31/21

**(Capsicum annuum)**

**JIGSAW PEPPER**

Leaves are multicolored in tie dye patterns of lavender, cream, violet, seafoam and forest green, making it one of the most beautiful peppers. Short, stocky plants produce small, plum-colored fruit, about as spicy as a jalapeño. Great in containers, borders or beds.

**PLANTING INSTRUCTIONS**

Start indoors in bright light 8-12 weeks before last frost date. Heat mat helps to warm soil and speed germination. Peppers often appreciate a bit of afternoon shade during the hottest summer weather.
