(Asclepias speciosa) Showy Milkweed

Gorgeous pollinator attractor plant and host to the monarch butterfly. Native to the the western half of the U.S., this herbaceous milkweed will bloom from May-September in lavender to rose colors. 1.5-5 feet tall plants spread as rhizomes, coming back perennially.

PLANTING INSTRUCTIONS

Perennial. Start seeds indoors 6-8 weeks before last frost in well-drained sterile seed starting mix. Sow outdoors as soon as soil has reached 55 degrees, in a full-sun location.
