

CAT# HB270 LOT# 2679A-F
MIN 40 SEEDS \$4.00
PACKED FOR 2021 SELL BY 12/31/21

(*Pycnanthemum pilosum*)

MOUNTAIN MINT

Generally perennial. An easy to grow pollinator plant loaded with nectar so the delicate spotted flowers hum with life. Mammals won't bother it, yet it's a delight in the gardens because simply brushing this plant will release a beautiful mint aroma.

PLANTING INSTRUCTIONS

Surface sow, gently pressing seeds into soil (requires light to germinate). Limit spread by creating root barriers in the soil, or grow in containers off the ground. Ample water support the most lush growth.
