ORCHARD BABY CORN

65 days. A supremely early maturing sweet corn with delicious flavor. A perfect choice for limited garden space or growing in containers, stalks stand just 3-5 feet tall bearing 2 ears each. Kernels are sweet and yellow with classic sweet corn flavor. Early 1900s heirloom.

PLANTING INSTRUCTIONS

Direct sow into the richest soil available 1-2 weeks before last spring frost. Succession planting prolongs harvest; planting in blocks improves pollination.
