BLOT PEPPER

A rainbow-colored pepper from Russia, a stellar sunset of colors and the very best flavor we have tasted in a sweet pepper. The flesh of this thick-walled pepper is supremely crunchy and juicy. Easily our favorite snacking and raw eating pepper, adding dazzling color to salads, and well suited to cooking too.

PLANTING INSTRUCTIONS

Start indoors in bright light 8-12 weeks before last frost date. Heat mat helps to warm soil and speed germination. Peppers often appreciate a bit of afternoon shade during the hottest summer weather.
