(Capsicum chinense)

PEACH CAROLINA REAPER PEPPER

100-120 days. Pretty, peachy colored riff on the world's hottest pepper! 1.5 million Scoville units. A super long season pepper that demands hot weather; be sure to start it indoors early and keep the growing conditions hot! Plants reach 3-4 feet tall.

PLANTING INSTRUCTIONS

Start indoors in bright light 8-12 weeks before last frost date. Heat mat helps to warm soil and speed germination. Peppers often appreciate a bit of afternoon shade during the hottest summer weather. More details at rareseeds.com
