**(Capsicum annuum)**

**LESYA PEPPER**

Believed to be the sweetest of all peppers and with the thickest flesh we have seen, Lesya is a total crowd pleaser with intensely juicy texture. Plants are stocky and high yielding, an altogether rugged and easy to grow pepper!

**PLANTING INSTRUCTIONS**

Start indoors in bright light 8-12 weeks before last frost date. Heat mat helps to warm soil and speed germination. Peppers often appreciate a bit of afternoon shade during the hottest summer weather.
